Job Description Accuracy

Inaccurate job descriptions can have widespread effects.

They can easily put your company at risk by:

- Hiring the wrong applicant
- Impeding disciplinary and dismissal actions
- Producing inaccurate performance reviews
- Fueling employee/manager conflicts
- Reducing productivity and team morale
- Putting a drain on training and onboarding resources

Legal & Productivity Considerations

Job Descriptions & Change

Change is rampant fueled by competitive pressures, new technologies and reorganizations.

With change comes new:

- Responsibilities
- Working conditions
- Tools and equipment used on the job
- Knowledge and skills

Job Description Management

Most organization's job descriptions are in electronic format (word, excel, PDF) and are filed on one or more computers.

Without a document management system to secure, control and manage job descriptions you can never be 100% confident that employees and managers have the correct job information.
